PROFESSIONAL SUMMARY

Computer Engineer with 2+ years of experience designing and developing scalable full-stack web applications using React.js, Next.js, Node.js, NestJS, TypeScript, and PostgreSQL, alongside hands-on experience in server administration, networking, and infrastructure automation. Skilled in building enterprise SaaS platforms, e-Governance systems, workflow automation, and POS solutions, as well as provisioning Linux VPS environments, configuring secure SSH access, deploying RabbitMQ message brokers, automating tasks via cron jobs, and administering mail servers.

INFRASTRUCTURE & SERVER ADMINISTRATION

- Provisioned and hardened Linux VPS instances on AWS and DigitalOcean for hosting production applications.
- Configured SSH key-based access and restricted root login .
- Deployed and maintained a RabbitMQ message broker.
- Automated recurring tasks (data sync, notifications) via scheduled cron jobs.
- Set up and administered mail servers for reliable transactional email delivery.

TECHNICAL EXPERTISE
